

Euler: every EDGE
exactly once

Hamilton: every
VERTEX exactly once

Euler circuit $\Leftrightarrow$
connected & all degrees
even

Euler path $\Leftrightarrow$ connected
& exactly 0 or 2 odd-
degree vertices

NP-complete to decide

Dirac: $\deg v \geq n/2 \Rightarrow$
Hamiltonian

Ore: $\deg u + \deg v \geq n$
for non-adjacent $u, v \Rightarrow$
Hamiltonian
