

Type 3: Regular
 $A \rightarrow aB$ or $A \rightarrow a \cdot$ Finite Automaton

Type 2: Context-Free
 $A \rightarrow \gamma \cdot$ Pushdown Automaton

Type 1: Context-Sensitive
 $\alpha A \beta \rightarrow \alpha \gamma \beta$, length of LHS $\leq$ RHS $\cdot$ Linear Bounded Automaton

Type 0: Recursively Enumerable
Unrestricted grammar $\cdot$ Turing Machine
